

RESOLUTION # 2021-09
RESOLUTION OF SUPPORT FOR SANITARY SEWER RECONSTRUCTION PROJECT

City of Tyler, State of Minnesota

BE IT RESOLVED that the City of Tyler, Minnesota pledges its support for a large sanitary sewer project that includes the reconstruction of a large portion of the city's sanitary sewer main and lift station as well as a portion of new sanitary sewer main that will allow for the reduction of Infiltration and Inflow and provide the ability for the connection of a newly constructed Pre-K through twelfth grade school facility and proposed new medical facility.

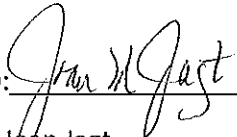

BE I FURTHER RESOLVED that the Sanitary Sewer project be listed as its number one priority in effort to remedy past and present health and safety threats caused by sewage backups in homes and businesses during heavy rainfall events.

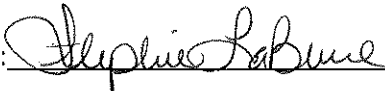

BE IT FURTHER RESOLVED that the City of Tyler, Minnesota, has received project estimates in the amount of approximately \$6,800,000 to complete the project.

BE IT FURTHER RESOLVED that The City of Tyler, Minnesota needs to make significant repairs to its sanitary sewer collection system which will require assistance in the form of grants from the State of Minnesota to make the project affordable.

BE IT FURTHER RESOLVED that the City of Tyler, Minnesota, is hereby requesting the inclusion of a sanitary sewer reconstruction project in the 2022 bonding bill for improvements to its municipal wastewater treatment system as described in the 2022 bonding bill application.

I CERTIFY THAT the above resolution was adopted by the Tyler City Council on June 7, 2021.
